

Ideal Woman's Medicine.

So says Mrs. Josie Irwin, of So. College St., Nashville, Tenn., of Lydia E. Pinkham's Vegetable Compound.

Never in the history of medicine has demand for one particular remedy been so great as for the one which is advertised in this column. It is Lydia E. Pinkham's Vegetable Compound, and never before has the demand for it been so great as it is to-day.

from the Atlantic to the Pacific, throughout the length and breadth of this great continent come the signs of women's suffering relieved, and thousands upon thousands are pouring in from grateful homes saying that it will and positively does cure the worst forms of female complaint.

Mrs. Pinkham invites all women who are puzzled about their health to write her at Lynn, Mass., for advice. Such correspondence is seen by women only, and no charge is made.

Vegetables in Medicine. The vegetable novelties in hats and coats in London include the substitute of the rosy red tomato and the green of the French bean for the wing of the animal decorations now commonly used on ladies' headgear.

HUMOR OF THE DAY

The Peepinist in Business. "Hello, Biederbeck! Are you still running the Wayback Whooper?" "No, Peavick. Threw it up some time since. Couldn't please every body."

"What was the trouble?" "Every advertiser wanted top of column and I couldn't fit it in—no real estate now."

"That suits you better, eh?" "Oh, no. Just the same old trouble. Can't lay out a plan that'll give every buyer a corner lot."

Mrs. Grovels—Yes. She has a husband who likes to see her dressed decently and isn't too grouchy to pay for it.

Returning Good for Evil. Tobacco blindness is becoming quite a common affliction, and short time ago several persons were being treated for it. It first takes the form of color blindness, the sufferers who have smoked themselves into this condition being quite unable to distinguish the color of a piece of red cloth held up before them. That is the popular medical test, though there is a more scientific one. Eventually the victim to tobacco blindness sometimes loses his eyesight altogether.

The First Golf Player. The golfer's latest claim is that Joseph of old, of whom Mrs. Potiphar became enamored, was the original golfer. In the first place, we are told that he wore a coat of many colors, which certainly must have been a golf suit, and the statement that he was put into a hole by his brethren is declared at St. Andrew's to be merely a figurative expression and signifies that his brethren beat him at his own game.

Value of Cotton Seed. In 1900 cotton seed added 1.14 cents to the value of each pound of cotton, or \$54,000,000 to the wealth of cotton raisers. The return would have been \$10,000,000 if all the seed had been crushed for oil.

Bathing the Baby. Young mothers naturally feel anxious about the baby's bath. It is best to bathe at six weeks to put the little one in water, first folding a soft towel in the bottom of the bath. Use only Ivory soap, as many of the highly colored and perfumed soaps are very injurious to the tender skin of an infant. E. R. Parker.

The Commoner.

The London County Council street railway experts have drawn up an interesting table setting forth the number of passengers using per year some of the most important termini in the world. Here it is: Grand Central, New York, 14,000,000; South Union, Boston, 21,000,000; North Union, Boston, 23,000,000; Broad street, London, 27,000,000; Waterloo, London, 25,000,000; St. Lazare, Paris, 43,000,000; Liverpool street, Liverpool, 14,377,000.

France Leads in Autos. France is way ahead of any other country in automobilism. This is owing, in a great measure, to the excellent roads—the most perfect in the world—and to the interest which the wealthy men here have taken in the automobile industry from the very start. America is behind in the manufacture of first-class touring machines; the cause is undoubtedly the lack of condition of turnpikes in the States, which are not fit for rapid traveling.

The Commoner.

A VENERABLE PASTOR CURED BY PE-RU-NA.

Pe-ru-na is a Cathartic Tonic Especially Adapted to the Declining Powers of Old Age.

The Oldest Man in America Attributes His Long Life and Good Health to Pe-ru-na.

Mr. Isaac Brock, of McLennan county, Texas, has attained the great age of 114 years. He is an ardent friend of Pe-ru-na and speaks of it in the following terms: "I have done so."

"One of the things I have found out to my entire satisfaction is the proper remedy for ailments due directly to the effects of the climate."

"For 114 years I have withstood the changeable climate of the United States. During my long life I have known a great many remedies for coughs, colds, catarrhs and diarrhoea. I had always supposed these ailments to be different diseases. For the last ten or fifteen years I have been reading Dr. Hartman's books and have learned from them one thing in particular: That these ailments are the same and that they are properly called catarrhs."

"I am professionally a remedy, Pe-ru-na. I have found it to be the best, it not only gives me relief from these ailments, but it has been my stand-by for many years and I attribute my good health and my extreme old age to this remedy."

"It exactly meets all my requirements. I have come to rely upon it almost entirely for the many little things for which I used medicine. I believe it to be especially valuable to old people, although I have no doubt it is just as good for the young."

—Isaac Brock.

A New Man at 79. Major Frank O'Mahoney, West Side, Hannibal, Mo., writes:

"I am professionally a newspaper correspondent, now 79 years old. I have watched the growing power of the Pe-ru-na plant from its incipience in the little log cabin, through its gradations of success up to its present establishment in Columbus, Ohio, and I conclude that merit brings its full reward."

"Up to a few years ago I felt no need to test its medicinal potency, but lately when my system needed it, your Pe-ru-na relieved me of many catarrhal troubles. Some two years ago I weighed 210 pounds, but fell away down to 165 pounds, and besides loss of flesh I was subject to stomach troubles, indigestion, loss of appetite, insomnia, night sweats, and a foreboding of getting my entire system out of order. During some months I gave Pe-ru-na a fair trial, and it rejuvenated my whole system. I feel thankful therefore, for although 79 years old I feel like a young man."

—Major Frank O'Mahoney.

Mr. Samuel Saunders of Blytheville, Mo., writes: "My disease was catarrh of the urethra and bladder. I got a bottle of Pe-ru-na and began taking it, and in a few days I was relieved and could sleep and eat all night. I think that Pe-ru-na is a valuable remedy. I had tried other highly recommended medicines, but they did me no good. My physician told me that I could not expect to be cured of my trouble, as I was getting to be an old man (57 years). I feel very thankful for what Pe-ru-na has done for me."

In a later letter Mr. Saunders says: "I am still of the same mind with regard to your Pe-ru-na medicine."
